

Aseva PulseFiber for Santa Barbara Businesses

Blazing fast. Locally supported. **Never faceless.**

The PulseFiber Difference

PulseFiber delivers blazing-fast internet backed by the people who live and work in your community. Unlike national carriers, we're right here when you need us.

Up to 2 Gig Symmetrical Fiber Internet

Deploy new sites or users in just days, not weeks.

Dedicated Connection

No shared bandwidth means no congestion.

Built for Business

Get your work done with business-grade performance & reliability.

Backed by Local Experts

Get help from real people – not a national call center or a chatbot.

Other Services We Offer

Beyond fiber connectivity, Aseva delivers a full suite of IT and security solutions designed to keep your business connected, protected, and supported.

VoIP & Phone Solutions

Including ClearStar VoIP, Cisco Webex, and Microsoft Teams Voice for seamless communication across your organization.

Cybersecurity Services

Endpoint protection, outsourced SOC, and cloud-based firewalls to strengthen your defenses against evolving threats.

Network Expertise

End-to-end network design, deployment, and support – all from one trusted partner.

Why Businesses Choose Aseva

We're not a national provider with faceless service and long wait times. We're local – which means faster installs, personal service, and a partner invested in the same communities you are.

- ✓ Santa Barbara's local internet provider for 30 years.
- ✓ Trusted by businesses like Deckers, Procore, Towbes Group, and American Riviera Bank.
- ✓ Real support from real people, based right here in town.

Bring the power of local fiber + enterprise expertise to your business.
